# DS-PM-RSO4 (08)

RS485 4/8 Outputs Expander

The DS-PM-RSO4 (8) is RS485 4/8 Outputs Expander. It can control normally open (NO) or normally closed (NC) relay output (Capacity: DC30V/1A) when connecting to the control panel via RS-485 BUS.

PHYSICAL INTERFACE

SPECIFICATIONS

Module	DS-PM-RSO4 (08)
Power Supply	DC 12V
Operating Temperature	-10℃ ~ +55℃
Operation Humidity	10%~90%
Capacity	DC30V/1A
Dimension(L x W x H)	144mm x 187mm x 31mm

INSTRUCTION

- Power off both the module and control panel and set the DIP address on the module before installation.
- Using different device addresses for extending modules on RS485.
- The available device address for module is from 1 to 31.
- Ensure reliable ground connection.
